From the Study
Deuteronomy 24:19 (The Message)

‘When you harvest your grain and forget a sheaf back in the field, don't go back and get it; leave it for the foreigner, the orphan, and the widow so that God, your God, will bless you in all your work.’

We are living in a time when the cost of everything is rising and people are finding it hard to make ends meet, struggling even to put food on the table, and certainly can't afford little luxuries. Jesus once commented, "You will always have the poor with you," and history will show there have always been poor people throughout the world. In the time of Moses, God set rules for the people to live by, as well as rules for worship, and these rules carried forward for future generations. This verse in Deuteronomy was one of those rules. It was about caring and providing for the poor, the immigrants, the needy. When a field was harvested the poor and needy would go into the fields and gather up what was left by the harvesters, thus they would have food or provision.

In our time we have Food Banks which are set up for the same reason, to allow those who are able to share with those who have nothing. In this time of Harvest celebration I want to encourage you to do your part, and together we can make a difference in the lives of people we may never even meet or know, whoever they are and wherever they come from, so that God will bless us in our work and service for Him.

Be blessed and **be a blessing** this month in Jesus name,

Pastor Phil.

***Lord Jesus, keep us always in Your word.
Thank You Lord, Amen.***

Bra Bank

We understand that it's not easy to find affordable underwear, so we're here to help.

Our Bra Bank collects unwanted bras, both new and old. We send them to places where underwear is very expensive, so they can be reused.

Even if a bra is not suitable for wearing, we make sure it doesn't go to waste. We recycle the parts and donate the money to Breast Cancer research.

If you need a Bra Bank at your workplace or school, let us know.

You can also drop off your unwanted bras with us, and we'll take care of everything.

ECO-Matters

"The earth is the Lord's, and everything in it, the world, and all who live in it; for he founded it on the seas and established it on the waters." - Psalm 24

As we enter into the harvest season it is good to reflect on those words and remember that we are merely stewards, tasked with tending and caring for the earth.

One way to enable this time for reflection is a really exciting opportunity coming to Swansea Minster (formerly St Mary's Church) during October. The world- renowned '**Gaia Earth**' will be erected at the Minster from 12th October until the 31st.

Measuring seven meters in diameter and created from 120dpi detailed NASA imagery of the Earth's surface – the artwork, by UK artist, Luke Jerram, provides the opportunity to see our planet, floating in three dimensions.

When presented indoors, the Earth artwork slowly revolves. A specially made surround sound composition by BAFTA award winning Composer Dan Jones is played alongside the sculpture.

The artwork is 1.8 million times smaller than the real Earth with each centimetre of the internally lit sculpture describing 18km of the Earth's surface. By standing 211m away from the artwork, the public will be able to see the Earth as it appears from the moon.

Unlike the moon, which we have been gazing at for millennia, the first time humankind got to see the Earth in its entirety as a blue marble floating in space was in 1972 with NASA's Apollo 17 mission. At this moment, our perception and understanding of our planet changed forever. Hanging in the black emptiness of space the Earth seems isolated, a precious and fragile island of life. From a distance, the Earth is just a pale blue dot.

"I hope visitors to Gaia get to see the Earth as if from space; an incredibly beautiful and precious place. An ecosystem we urgently need to look after – our only home. Halfway through the earth's sixth mass extinction, we urgently need to wake up, and change our behaviour. We need to quickly make the changes necessary, to prevent runaway climate change".

Entry to The Minster to see the exhibition is free, but it is hosting multiple cultural and religious events centered around the Gaia installation at various times.

On Tuesday 27th October there will be an 'eco' presence from local groups. I will be hosting a session at 2pm on Eco Church, including a panel discussion with local churches that participate in the scheme. So please come along to listen to that!
